COMPOSITE DESIGN & FABRICATION

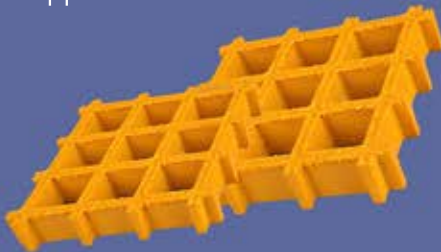

SC-R Roof Top Walkways

Staircare SC-R safe access roof walkways and guardrails are custom made FRP systems, that can be adapted to suit different roof requirements, including:

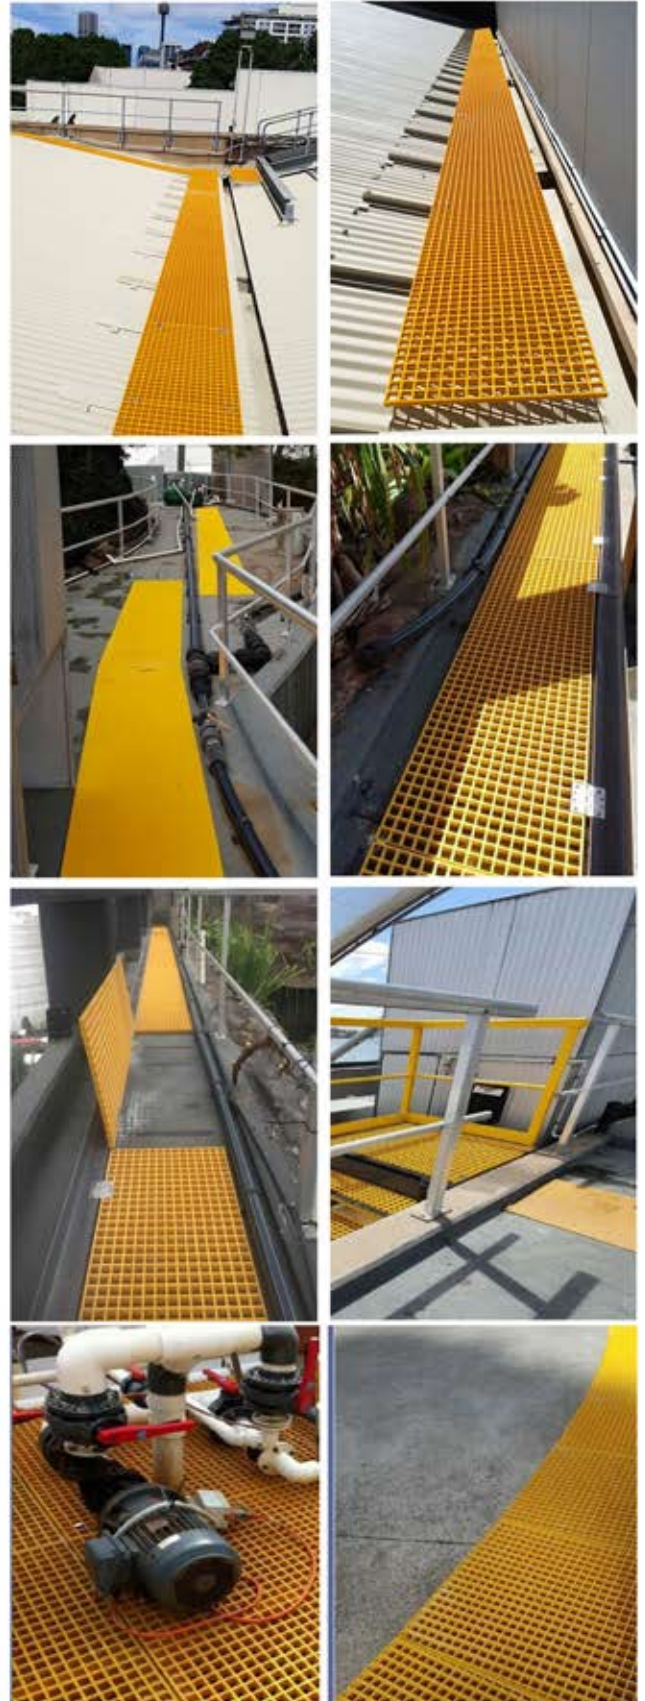

- Excellent slip protection
- Levelling sloping access
- Access platforms and guardrails
- FRP materials are corrosion proof

Staircare SC-R Roof walkways are made with SC-R 38 x 38 square mesh, 25mm or 38mm thick depending on application. They offer corrosion prove FRP base with silicon carbide grit for excellent slip protection. SC-R grating, stair treads, structural shapes and handrails combine to an FRP system that provides the ultimate in corrossions resistance, and they are light weight and can be site assembled without the need for hot work permits. SC-R walkways are made to measure to suit the required application

SC-R roof walkways are built to comply with Australian standard AS 1657:2018 and SC-R surface finish has been tested to AS 4586:2013 achieving the highest slip resistance class P5
